Full-Stack developer with a focus on Front-end development using React. Earned a certificate in Full Stack Web Development from the University of Texas at Austin Coding Boot Camp. Passionate about building user-friendly applications for a smooth experience. Strengths in problem solving, working in teams, and building strong front-end foundational code and beyond.

TECHNICAL SKILLS

Languages: JavaScript, CSS3, HTML5, SQL

Applications: GitHub, MongoDB, MySQL

Tools: React, SCSS, Express, Node, Bootstrap, Bulma

PROJECTS

Night Out | [GitHub Repository](#) | [Deployed Application](#)

- Summary: Web-based app that lets users search for a random Brewery and Event based on the city they searched by.
- Role: Front-End Developer
- Tools: HTML/CSS, JavaScript, Bulma, Google Fonts

ResuMake | [GitHub Repository](#) | [Deployed Application](#)

- Summary: A resume builder MERN application that helps users easily create and access their resumes, even when they're not logged in. Resumes can be downloaded as PDFs in both ATS friendly formatting and the default web format.
- Role: Front-End/React Developer & Designer
- Tools: React, HTML/CSS, JavaScript, Bootstrap, Font Awesome, Styled-Components, unDraw

Employee Directory | [GitHub Repository](#) | [Deployed Application](#)

- Summary: A React application that uses mock data to display employee info. Users can search for employees by typing down first/last names onto the search bar. Employees can also be sorted by first/last name in alphabetical order.
- Role: Sole contributor
- Tools: HTML/CSS, JavaScript, React, Bootstrap

EXPERIENCE

Power Personnel Services, Inc.
Electrician

2018-2020
Penitas, TX

Description:

- Worked with a team of electricians in a fast-paced environment to complete various electrical projects. Projects included providing support for Major Outages at Power Plants, wiring commercial buildings, and setting up electrical systems in new construction areas.
